LEGISLATIVE COUNSEL'S DIGEST

SB 455, as amended, Lowenthal. High-speed rail.

Existing law creates the High-Speed Rail Authority with specified powers and duties relative to development and implementation of a high-speed train system. The authority is composed of 9 members, including 5 members appointed by the Governor.

This bill would provide that the members of the authority appointed by the Governor are subject to appointment with the advice and consent of the Senate. *The bill would require the members of the authority, at a scheduled board meeting, to cause to be prepared an overall project schedule with project delivery milestones on a quarterly basis, and to approve a quarterly contract status report, beginning at the first board meeting after March 1, 2010. The bill would also require the members of the authority to approve all contract amendments at a scheduled board meeting.*

Existing law, pursuant to the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, approved by the voters as

Proposition 1A at the November 4, 2008, general election, provides for the issuance of \$9.95 billion for high-speed train capital projects and other associated purposes. Existing law defines Phase I of the high-speed train project to be between San Francisco Transbay Terminal and Los Angeles Union Station and Anaheim.

This bill would require the authority to ensure that projects undertaken by the authority, including projects for acquisition of right-of-way, are consistent with specified criteria.

Existing law generally requires the approval of the Department of General Services before a state agency may acquire, hire, dispose of, or let real property in fee or in a lesser interest, subject to certain exceptions, including real property obtained for highway purposes by the Department of Transportation. Existing law requires the Department of General Services to inventory state-owned property, other than property owned by the Department of Transportation and certain other state agencies. Existing law provides that property acquired by the Department of Transportation for highway purposes and leased back for commercial or business uses to the former owner for a term exceeding 6 months may be insured for loss by fire at the request of the former owner with the premium for the insurance included in the rent.

This bill would enact similar exceptions, authorizations, and exemptions relative to real property obtained for high-speed rail purposes by the High-Speed Rail Authority. The bill would make various additional conforming changes.

Existing law generally requires the approval of the Department of Finance and the State Public Works Board before a state agency may expend funds from an appropriation for capital outlay purposes. These provisions do not apply to the Department of Transportation and certain other state agencies.

This bill would also make these provisions inapplicable to the High-Speed Rail Authority.

Existing law provides that the Department of Transportation is the responsible agency for projects for various purposes under the Public Contract Code, except with respect to projects under the jurisdiction of other specified state agencies.

This bill would provide that the High-Speed Rail Authority is the responsible agency for projects under its jurisdiction.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

38 SEC. 5. Section 13332.11 of the Government Code is amended
39 to read:

13332.11. (a) (1) Except as otherwise specified in paragraph (2), no funds appropriated for capital outlay may be expended by any state agency, including the University of California, the California State University, and the community colleges, until the Department of Finance and the State Public Works Board have approved preliminary plans for the project to be funded from a capital outlay appropriation.

(2) Paragraph (1) shall not apply to any of the following:

(A) Amounts for acquisition of real property in fee, or any other lesser interest.

(B) Amounts for equipment or minor capital outlay projects.

(C) Amounts appropriated for preliminary plans, surveys, and studies.

(b) Notwithstanding subdivision (a), approvals by the State Public Works Board and the Department of Finance for the University of California and the community colleges shall apply only to the allocation of state capital outlay funds appropriated by the Legislature, including land acquisition and equipment funds.

(c) Any appropriated amounts for working drawings or construction where the working drawings or construction have been started by any state agency prior to approval of the preliminary plans by the State Public Works Board, and all amounts not approved by the board under this section shall be reverted to the fund from which the appropriation was made. No major project for which a capital outlay appropriation is made shall be put out to bid until the working drawings have been approved by the Department of Finance. Any proposed construction bid alternates shall be approved by the Department of Finance.

(d) The Department of Finance shall approve the use of funds from a capital outlay appropriation for the purchase of any significant unit of equipment.

(e) The State Public Works Board may augment a major project in an amount of up to 20 percent of the total of the capital outlay appropriations for the project, irrespective of whether any such appropriation has reverted. The State Public Works Board shall defer all augmentations in excess of 20 percent of the amount

1 appropriated for each capital outlay project until the Legislature
2 makes additional funds available for the specific project.

3 (f) In addition to the powers provided by Section 15849.6, the
4 State Public Works Board may further increase the additional
5 amount in Section 15849.6 to include a reasonable construction
6 reserve within the construction fund for any capital outlay project
7 without augmenting the project. The amount of the construction
8 reserve shall be within the 20 percent augmentation limitation.
9 The State Public Works Board may use this amount to augment
10 the project, when and if necessary, after the lease revenue bonds

12 the project, any amount remaining in the construction reserve funds
13 shall be used to offset rental payments.

14 (g) Augmentations in excess of 10 percent of the amount
15 appropriated for each capital outlay project shall be reported to
16 the Chairperson of the Joint Legislative Budget Committee, or his
17 or her designee, 20 days prior to board approval, or not sooner

21 outlay appropriation, the Department of Finance shall certify, in
22 writing, to the Chairperson of the Joint Legislative Budget
23 Committee, the chairpersons of the respective fiscal committees,
24 and the legislative advisors of the board that the requested action
25 is in accordance with the legislatively approved scope and cost.
26 If, pursuant to the other provisions of this section, the Department
27 of Finance approves changes to the approved scope or cost, or
28 both, the department shall report the changes and associated cost
29 implications.

30 (i) The State Public Works Board shall defer action with respect
31 to approval of an acquisition project, when it is determined that
32 the estimated cost of the total acquisition project, as approved by
33 the Legislature is in excess of 20 percent of the amount
34 appropriated, unless it is determined that a lesser portion of the
35 property is sufficient to meet the objectives of the project approved
36 by the Legislature, and the Chairperson of the Joint Legislative
37 Budget Committee, or his or her designee, is provided a 20-day
38 prior notification of the proposed reductions in the acquisition
39 project, or whatever lesser period the chairperson, or his or her
40 designee, may in each instance determine.

1 (j) The State Public Works Board shall defer action with respect
2 to the approval of preliminary plans when it is determined that the
3 estimated cost of the total capital outlay construction project, as
4 approved by the Legislature, is in excess of 20 percent of the
5 amount appropriated.

6 (k) Nothing in this section shall be construed to limit or control
7 the Department of Transportation, the High-Speed Rail Authority,
8 or the California Exposition and State Fair in the expenditure of
9 all funds appropriated to any of them for capital outlay purposes.

13 authorized in any appropriation, except an appropriation from the
14 California Water Fund or an appropriation to the Department of
15 Transportation or the High-Speed Rail Authority for capital outlay

13 connection with the granting and conveying of those easements
14 and rights-of-way, including charges made for administrative costs,
15 shall be deposited in the General Fund for appropriation as
16 provided in Section 15863. Any expenditure in connection with
17 the granting and conveying of those easements and rights-of-way
